NEON SIGN PLANT DEVELOPS NEW COLORS;
SOVKHOZES GET NEW GENERATORS

A new telephone directory for the city of Yerevan is being prepared for publication. The Board of Directors of the Yerevan City Telephone System hereby informs all public, commercial, and private subscribers that the board must have by 1 September 1950 the following data, submitted in Russian and Armenian:

- 1 -

SECRET

[illegible]

SECRET

50X1-HUM

1. The full and abbreviated forms of the names of the subscribing establishment or enterprise, and its address.
2. The exact names of departments and their telephone extension numbers.
3. Surname, first name, and patronymic; address; extension number for apartment subscribers.

Directors of establishments, enterprises, and organizations are invited to place advertisements and notices in the new edition. Establishments interested should apply to the subscription department, Yerevan City Telephone System. Tel. 2-08-58. -- Advertisement

NEW WELDER IS SERIES PRODUCED -- Leningradskaya Pravda, 19 Aug 50

The Leningrad Elektrik Plant has initiated series production of the MSM-150 butt-welding machine. The new units are distinguished by their high power and fully automatic operation.

FAULTY ORGANIZATION SLOWS COMPRESSOR OUTPUT -- Moskovskaya Pravda, 23 Aug 50

The Pushkino Electrical Machinery Plant (Krytov, director) is charged with the very important job of building mobile air-compressor units. It is having trouble keeping up with its program. The entire trouble lies in poor organization of production. No one pays any attention to introduction of new techniques or Stakhanovite methods. Innovators get no support from administrative or party leaders. High-speed cutting is unheard of and haphazard work of all sorts flourishes. -- A. Shapovalov, Chief Accountant, Elektromontazhkonstruktsiya Trust
